

HELP WANTED

ASA -- looking for a “few more great teachers ”

ASA (the Artists' Studio Association) is gearing up for the summer art season when affordable workshops are held most weekends. These events cover various art media and last from one to three days. Some of the 2010 workshops included watercolor, polymer clay, acrylics and mixed media.

To offer a full season of workshops, more instructors are needed. If you have an artistic interest that you would like to share with the public in a teaching setting, please contact Arlon Gilliland (541-265-2678).

ASA is located at 620NE Hwy 101 in the same building as the Artists' Co-op Gallery. Their website is www.AsaArt.net.
